- Adam Azzam is extremely helpful, available, and concerned for the students academic progress. He is very approachable and flexible to each individual students schedule. Overall, he is one of the most helpful T.A's at UCLA.

- Adam Azzam's explanations were always extremely clear and explicit, step-by-step, and well-explained. I always felt like I had a better grasp of concepts and material after his clarifications. The only genuine downside of section was the brevity of the class, but I know there isn't much to be done about that. I would not change his teaching style in any way because it was quite effective.

- He's a good teacher as a whole

- I think Adam does a great job explaining and answering questions asked during discussion and topics from lecture. His step by step teaching really helps.

- Very good at explaining problems, but takes too long.

- very good teacher aid! knows a lot and can communicate and express very well! no weaknesses
